Introduction

The ZDHC Performance InCheck report is a universally accepted chemical inventory overview for input chemical management. It is an easy to read report of chemical inventory providing a numerical overview of individual products certified against the different versions and levels of the ZDHC MRSL (current or previous) during a period of time.

The Performance InCheck report presents a summary of the products utilised within the supplier's facility, along with the conformity of chemical products to the Chemicals to Zero Levels and the ZDHC MRSL Conformance Levels specified in the relevant ZDHC programmes.

This report has been generated based on the chemical inventory data uploaded and verified through the ZDHC Gateway. The exact metrics are accurate at the time of report generation and subject to change. This document does not constitute a certification and should be used for informational and monitoring purposes only.

Improve your Chemical Inventory Performance with these easy steps:

1. Identify the chemical products in your chemical inventory that are not evaluated or expired in the Chemical Inventory Performance above.
2. Contact your Chemical Supplier (Formulator) to ensure that they acknowledge and understand Chemicals to Zero and the ZDHC MRSL, certify their products against the applicable ZDHC MRSL and publish them on the ZDHC Gateway.
3. Invite your Chemical Suppliers (Formulators) to join the ZDHC Gateway, to upload and publish their products.
4. Use the "Invite Feature" on the ZDHC Gateway to send the invites to your supply chain partners.
5. Ensure your staff is using the ZDHC Gateway Chemical Module to get information about high performing, safer chemical products before purchasing them, to keep a high Chemicals to Zero Level and respectively a high ZDHC MRSL conformance certificate.
6. Use the "Connection Feature" on the ZDHC Gateway to connect with your business partners such as Brands, clients or Vendors to share this report in various formats.

Visit the ZDHC Knowledge Base if you have any questions.

Introduction

The ZDHC ClearStream report provides a comprehensive overview of wastewater and sludge testing results in alignment with the ZDHC Wastewater Guidelines. It presents laboratory test data for discharged wastewater, sludge, and untreated wastewater, with parameters evaluated against the applicable ZDHC limits and scoring methodology.

This report shows the high-level performance scores by parameter category (Conventionals and Anions, MRSL, Metals), along with detailed parameter-by-parameter results. Use this document for compliance tracking and to identify areas for improvement in your wastewater management.
